Experience (Projects)

Real-Time Chatting Platform (VibeConnect)

2026

- Role:** Full-Stack Developer
- Tech Stack:** React.js, Node.js, Socket.io, MongoDB
- Project Goal:** Developed a high-concurrency, real-time chat application featuring instant messaging, Voice and Video Call, user presence tracking, and media sharing.

E-Commerce Microservices Architecture

2026

- Role:** Backend / Full-Stack Developer
- Tech Stack:** Node.js, Express
- Project Goal:** Re-architected a monolithic e-commerce application into a microservices framework to handle high-traffic spikes during flash sales.

Online Digital Library Platform (PageTurner)

2026

- Role:** Full-Stack Developer
- Tech Stack:** React.js, Node.js, Express
- Project Goal:** Developed a comprehensive digital library web application featuring automated book rental lifecycles and an advanced administrative control center.

Education & Courses

Software Development Intensive | GOMYCODE 2026

Completed a 5-month intensive course focusing on full-stack web development.

Hobbies & Interests

I am an avid football fan and follower of Liverpool F.C., and I enjoy creative pursuits such as photography, graphic design, and I love gaming.

Fun Facts

I am a self-taught technician who enjoys DIY hardware repairs, and I am constantly expanding my knowledge base through hands-on troubleshooting
